1956 – 59	Balliol College of Oxford University Honours School of Animal Physiology
1959 – 62	Department of Biochemistry, Oxford University
1962 – 65	Oxford University Clinical Medical School Radcliffe Infirmary, Oxford

Current Appointments

2002 – date	National Director for Emergency Access, Department of Health
2002 – date	Senior Research Fellow, Imperial College, London

As the National Director for Emergency Access, Professor Sir George Alberti is responsible for overseeing the implementation of the Reforming Emergency Care strategy. Working closely with emergency care leads (ECLs), one of Sir George's overarching aims is to help organisations rethink the way access to emergency care is delivered. He is also focusing on improvements to the way health communities co-operate and communicate with each other to improve the patient's overall experience of emergency care.

Professor Sir George Alberti was president of the Royal College of Physicians London (PRCP) until July 2002. As PRCP he was in close contact with the Government and the Department of Health, providing advice and feedback from a medical viewpoint to ensure the highest standards of patient care in the implementation of new developments in the NHS. He was co-chairman of the first of the national service frameworks (NSFs) on coronary heart disease. He is a member of the Modernisation Board and the Council of the Academy of Medical Sciences.

He is also Emeritus Professor of Medicine at the University of Newcastle upon Tyne and a Senior Research Associate at Imperial College. He works extensively with both the International Diabetes Federation and the World Health Organisation. He is also Vice President of Diabetes UK. He has been heavily involved in diabetes work in sub-Saharan Africa, particularly Tanzania, and in Mauritius and has published more than 1000 articles on diabetes and metabolism.
